Appeal

In connection with the martial law in Ukraine, the Legion of Light Charitable Foundation formed a voluntary formation, which became part of the Lion Volunteer Battalion of the Territorial Defense of Lviv, which included 32 people.

Because members of the formation patrol in Lviv are involved in the protection of various objects, as well as perform tasks of varying complexity, there was a need to provide members of the formation, namely paramedics who provide home and first aid to soldiers, medical bags or backpacks paramedic in the amount of 2 units.

Taking into account the above, we ask you to help with all possible charitable assistance to provide proper home medical and first aid to the participants of the formation.

Thank you for your assistance and help!
Glory to Ukraine!

Sincerely,
Director

Roman GOMENYUK
